

VOLUME XI

SANTA ANA, CALIFORNIA, OCTOBER 11, 1933

NUMBER FIVE

Austin Joy Heads Y. M. C. A. Confab

Austin Joy, local Y. M. C. A. worker, will be chairman of the fifth annual junior college Y conference when it convenes in Occidental college next Saturday and Sunday.

The purpose of the convention is to make Y workers more intimately acquainted with the problems they have to face, and educate them along the lines of social, economic, and spiritual welfare.

Speakers for the conference will be Dr. R. D. Bird, president of Occidental college, Dr. J. Hudson Ballard, Occidental professor of religion, and Beverly L. Oaten, Y. M. field secretary.

New Eligibility Rules Are Formed At Meet

The new eligibility rules for sportsmen were added to the present list at a meeting of College Deans of Southern California held last Friday at Chaffey College.

Beside the old standard rule which requires the sport inclined to retain a "C" average in 12 units, one of the new laws states that every athletic player shall have gone to the school at which he is playing for a period of one semester before he is eligible for conference competition.

Also, every active athlete must sign an all-athletes file composed of all schools in the certain division, whereby coaches hope to eliminate uninterested athletes.

These new rules are to become legal at the beginning of next semester, stated Dean McKee Fisk today.

Students Explore Laguna Sea-Bottom

Explorations of Laguna sea-bottom were made last Saturday by Glen Akin, Dan Finch, Lee Gross and Harold Chrisiansen, students of Santa Ana junior college.

Mr. Akin collected a few specimens, including a Sea Hare, which resembled a huge snail without a shell. Also numerous small sea urchins were collected.

Members of the party discovered columnar joints and volcanic rocks on the sea bed, giving evidence of volcanic action on our immediate coast in past years.

Chrisiansen made a trip similar to this last year and discovered a new type of parasitic fish. Also he has worked with a salvage company along this coast.

Tatlers Initiate Nine New Club Members

Welcoming nine new members into their club, Tavern Tatlers and their advisers, T. H. Glenn, enjoyed a steak bake at Dana Point yesterday afternoon.

Reading original themes as a part of their initiation those who entered were Katherine Gorath, Ferris Edgar, Reed Sutherland, Pauline Flint, Barbara Allen, Eleanor Watter, Carol Cogan, Edgar Ewing, and Josephine Madrid.

Enrollment Grows As 100 Students Enter

To date, enrollment has increased by exactly one hundred students, stated Miss Mabel G. Whiting, registrar. At the beginning of school the Junior College totaled 655 students.

New enrollments have been coming in until now there is a total of 755 students enrolled. It is expected that the enrollment will continue to increase at least for two weeks yet, Miss Whiting concluded.

Club Presidents Meet With Board

Presidents of all campus clubs and the executive board will meet tonight in the Y hut as the first of several presidents meetings to be held throughout the year, according to Business transacted at the last executive board meeting.

The main purpose of the meeting will be to urge club presidents to either force their members to hold associated student tickets. The constitution dictates that members of any campus must first be members of the associated students.

"Only in a very few isolated cases will this rule be waived", states Miner Whitford, president of the associated students, "and in these cases only on the complete agreement of the club."

Other purposes of the meeting will be to get club presidents more intimately acquainted, so that they may discuss their mutual problems and bring them before the executive board.

Student Directory To Be On Sale Soon

Work on the Junior College Student Directory will begin at once in charge of Kenneth Hunt, Orville Plumlee, and Clyde Westmoreland, it was decided at the first meeting of the Press club held last Thursday at Farla Nell Clayton's home.

In order to complete the directory as soon as possible a meeting of the Press club will be held next week at George Farquhar's home in Huntington Beach.

Officers besides the president, George Farquhar, who was elected last year, were also chosen at this meeting as follows: vice-president, Orville Plumlee; secretary and treasurer, James Torrens.

New List Made For Spelling Examination

Words most frequently misspelled in junior college themes are to be the basis of the new 500 word spelling list, according to T. H. Glenn, English head. The list is to be posted some time this week.

An examination made up of one hundred words selected from the list will be given all English A students. A grade of 90 or above is required in order to receive a passing grade in the course. Students are to be permitted to repeat the examination until a satisfactory grade is received.

Scheduled Events To Come In Next Few Days

Wednesday, October 11—
Presidents meeting.
Thursday, October 12—
Las Meninas rush party.
Alpha Kappa Zeta.
Friday, October 13—
Spinsters Rush party.
Saturday, October 14—
Las Gitanas rush party.
Moavs rush party.
Football—U. C. L. A. Frosh at Santa Ana.
Monday, October 16—
Service clubs meet.
Tuesday, October 17—
Noon dance.

Students May Buy Tickets To Forum

Junior college students may hear such speakers as Norman Thomas, Robert La Follette Jr., and Norman Hapgood at the Orange County forum to be held starting October 24 in the Santa Ana polytechnic high school auditorium for only \$2.50.

Single seats cost \$1.50 for each of the six sessions, but the general public may buy season passes for \$5, thus saving \$4. The season price is cut in to for college college students, however.

The lecture course last six months, and speakers run as follows: A debate between Norman Thomas and Dr. Clinton Wunder on Socialism; and talks by Senator Robert La Follette, Jr., Chester Rowell, V. F. Calverton, Dr. Rufus B. vonKleinsmid, Norman Hapgood, Oswald Garrison Villard, and Dr. Alexander Meiklejohn in the respective order, one coming each month.

"This is an opportunity not often afforded college students to hear speakers of international repute on subjects with which they have intimate acquaintance", stated President D. K. Hammond.

Student Aid Plans Launched This Week

That the same policy for student's aid will be employed this year as last year, the Employment Committee has announced.

This plan enables students to earn 30 cents an hour for not more than five hours a week to defray expenses which might otherwise cause their leaving school. The work is furnished by teachers who need help.

Fully \$960 of the goal of \$1000 to support this fund has been subscribed to by the teachers, who pay small amounts each month from their salaries. Students desiring clerical work for this help must apply to Mrs. Eleanor H. Northcross, dean of women, or President D. K. Hammond and their needs will be investigated.

Santa Ana junior college and high school teachers also agreed to give \$1340 to the Community chest, of the \$4000 that is being subscribed by all teachers in Santa Ana.

Women Are Guests At A. W. S. Conclave

Local delegates will attend the annual A. W. S. conference of Southern California junior colleges with W. A. A. representatives as their guests to be held Friday and Saturday at the Los Angeles junior college.

Friday afternoon and evening and Saturday morning will be devoted to discussion. A dinner and entertainment will be held Friday night at the Serf and Sand club at Hermosa Beach. Saturday afternoon the delegates will be guests of the Los Angeles junior college at a football game with Ventura junior college, on the Los Angeles college campus.

Dorothy Tedford, president of the local A. W. S., will speak briefly on "Matinee Dances" in connection with the theme of the conference "The Modern Girl." Others who will attend the convention are Miss Agness Todd Miller, faculty social chairman, who will represent Mrs. Eleanor Northcross, dean of women; Miss Zena Leck, W. A. A. adviser; Ruth Crowl, W. A. A. president; and Charlotte Fulton, delegate at large of the associated women students.

Over 200 Students Attend Picnic Friday

Over 200 attended the annual Associated student picnic held at Irvine Park Friday night. Immediately following the supper an informal program and dance were held.

Martin Bowman, who graduated last year, was master of ceremonies for the evening. Joy Wilson sang, accompanied by Alta Fisher, and two tap dances were offered by Frankie McDonald. John Henderson and Alta Fisher both played piano solos. Later in the evening Walter Workman sang several songs and led yells. The major part of the evening was spent in dancing.

Y.W.C.A. Retreat Is To Be Held Oct. 20

The week-end of October 20 was set as the date for the Y Retreat at a cabinet meeting of the Y. W. C. A. Wednesday noon. Any girls in junior college may attend this week-end outing. Cars will leave Friday afternoon for the Y cabin in the mountains above Modjeska's home. Dorothy Ensign was put in charge of transportation, Ruth Christ of the food, and Harriet Abrams of the program.

A Hallowe'en barn dance was discussed at the meeting, but definite date and plans have not yet been made. The idea of presenting a program to some hospital or other institution during the holidays besides the usual social work, was also brought up during the meeting.

Camera Club Meets Monday Afternoons

"Santa Ana Camera Club" was the name chosen for the new photography group at its meeting Monday. Election of officers will be held after a Constitution has been adopted. The club will meet each Monday afternoon at 3:45. All who are interested in pictures are invited to come to the next meeting and bring their cameras.

EL DON

"With one aim—to serve student and college."

The official publication of the Associated Students of Santa Ana Junior College, Santa Ana, California. Published weekly during the school year while school is in session and issued on the Junior College consolidation ticket, the price of which includes \$1.00 for subscription to the paper.

Entered as second class matter November 9, 1927, at the post office at Santa Ana, California, under the act of March 3, 1879.

Published in the school print shop on the campus and edited by the journalism class of the college.

There's Work To Be Done

Within twenty-five years mental hygienists will be as important in the school system as is the school nurse and physician today, was the statement made by Dr. Norman Fenton of the Child Guidance Clinic in a lecture given to Santa Anans recently.

This seems inconceivable to us now, but no more so than did the idea of school nurses and physicians twenty-five years ago, said Dr. Murray Bates, college physician. If this is true a new field of vocational opportunity is offered to today's students. The widespread interest in this fascinating field among junior college students has already been shown by the large number who are taking courses in psychology.

New developments of this type in the vocational field show that despite periodical depression, the younger generation has something to look forward to as a worthy life's work.

What About It, Dons?

Last year several students were put in high school study halls during all their vacant periods for a week or two because they could not conduct themselves quietly in the arches. They were given fair warning that the penalty would be levied, but they did not heed.

This year the same condition is extant, and students are being requested through El Diario, in assemblies, and in El Don to cease this conduct of their own accord so that steps will not have to be taken by the faculty to stop it by penalizing offenders.

It is impossible for people in classes near the arches to concentrate on their work with a constant barrage of shouts and shrieks emanating from the sidewalk.

This is not a threat, it is a request. If it is not granted graciously steps of punishment will be taken by these in power without preliminary threats.

Make Yourself At Home Here

Would you college students, be guilty of throwing rubbish on the well kept lawns of your homes? The unanimous answer is no, yet you continually disregard school rules and clutter up the grounds here. This is an adolescent habit which should be cast off with other childish pranks.

When one enters college, he should be sufficiently matured to appreciate a beautiful setting for his school. He should take a personal pride in preserving campus tidiness. It is rather embarrassing to one of your visitors from a large college when the school grounds are cluttered with papers and remains of lunches and nice, juicy vegetables are scattered upon the benches.

These are daily occurrences, and it behooves every student who carries a lunch to take himself to task. Are you the culprit?

Tomorrow Never Comes

All our lives we have been drilled to think and plan for tomorrow. It started when we began preparing for our daily lessons.

Our parents and teachers were very anxious for us to be concerned about our daily work; and so we were. Everywhere we turned we were spoken to about the "rainy day".

Today, however, the pendulum has begun swinging back. We have begun to see that tomorrows never come—that our real happiness lies in what we do in our everyday lives.

Today is the time to go in action—for today is what was yesterday's tomorrow! LIVE today!

Doings of Dons

BY GEORGE FARQUHAR

Since Bill Kistinger's pet passion, Verna Helm, is working in Los Angeles, Bill has taken to flying to the city and bringing her home on week ends. But Verna says no more. She can't even trust him in his Ford, heaven forbid the aeroplane.

The "hush" money wasn't "hushy" enough this time, so here goes. L. L. Beeman is reputed to have been seen easing around the Rendezvous the other Saturday night.

Jack Maurice, with a nine piece orchestra, is going to buck the Valencia and Balboa by putting on dances in the Huntington Beach Memorial hall every other Friday. He's going the Rendezvous ballrooms one better by offering cups for the best dancers.

And few there be that know Pauline Berry ditched assembly for a visit to the beach to get one of those new-fangled sunburns. Pauline calls it fan tan.

"That's the fly in the ointment," admonishes Miss Watson, upon discovering why her French class can't pronounce their phonic lessons. What she really meant to say was—"That's the nigger in the woodshed."

Our ex-Associated Student president, Gene Hall, is now taking a merchandising course at the University of Southern California. He is at home to S. A. J. C. at 2830 Ellendale Place, Los Angeles.

If it's a winning team that you want, follow Bill Cook's Dons every week and come out and fight for them this Friday.

Flushed with their 6-0 win over Pomona, the Dons tackle the U. C. L. A. frosh Friday night. And after Riverside jaysee humbled the frosh 39-0 last Friday, the coming struggle should indicate somewhat of a comparison between Santa Ana and one of her toughest foes, Riverside.

Traffic Tripe

Just a little advice on the fine art of driving.

1. When backing out of the driveway, be sure and run over the neighbor's lawn and flower bed. They love it.

2. Don't bother to look to see if there are any other cars coming when you reach the street. It's an awful lot of bother.

3. Don't stop at boulevard stops. Pause twice the next time.

4. When driving at a high rate of speed, talk with both hands off the wheel. It shows how good a dodger you are.

5. When slowing up or stopping, don't signal. It's much more fun if the person behind you bumps you into the car front.

6. It is perfectly all right to be indefinite when signalling. Probably no one is looking anyway.

7. Pay no attention to speed laws. They were made for foreigners.

8. If arrested for speeding, be calm and amuse the offending cop with a few well-chosen wise-cracks. He will love them.

9. If a pedestrain gets in the way, hit him, but for heaven's sake don't stop; you might get caught.

10. And last but not least, pay no attention to other cars. Let them look

Dean Scott H. Goodnight, head of the Summer Session at the University of Wisconsin, reports that the session was a financial success regardless of the depression. A new system of salary cuts was necessary however.

Bulletin Bored

The main bulletin board for student notices and announcements holds a great fascination for the new freshmen. Before, during, and after classes may be see different groups gathered in front of it. Some faces are wistful, searching for a note with their name on it; some are curious, looking to see whose name is up there; and still others are indifferent, just glancing at the board from force of habit.

Suddenly, a girl sees a piece of paper with her name on it. Eagerly she unfolds it to see what it contains. Surprise, disappointment, or delight may be registered by her expression, but she may conceal any emotion by nonchalance. Then a big husky football player reaches over the heads of a few chattering girls to pull down an invitation. Another girl sees a library notice with her name on it and hurriedly rushes towards the library.

Gradually, the crowd leaves for the next class. A lonely figure comes up the hall and stops in front of the board, searching for something, but with apparently no luck. Hesitantly, she sighs, turns and walks away.

Unless one stops to think, one does not realize how important a part the bulletin board plays in jaycee life.

Studes Say—!

Let's have a special reserved rooting section for junior college students only. What say? In the dear old days of prep school, proper spirit was got by an organized rooting section. Today our rooting is unorganized because our students are scattered over a large territory with a little of every thing else thrown in between.

Believe me, it is mighty discouraging to want to yell, and all the co-operation you get is dirty looks from the elders around you. Further more, think of the yell leader who tries to lead and cannot because his audience is scattered over the area of two or more bleachers.

Signed,

Mildred Johnson

(Editor's note: Signed comments do not necessarily reflect the opinions of this publication.)

Don's Ditties

THE DAY YOU CAME ALONG

My heart went leaping
The day you came along.
Forgot my weeping
The day you came along.
Before I knew it
I'd hummed a little song
The day you came along.
The fog was lifted
The day you came along.
I sent my blackbirds
Right back where they belong
The day you came along
Men have conquered nations,
Other men have set them free
Pioneers have crossed the sea.
You can turn the pages
Through the ages, but today to me
Was the most important day in history.
Two souls were mated
The day you came along
A world created
The day you came along
One look convinced me
I knew I wasn't wrong
The day you came along.

Boston University has acquired a roof garden on top of one of its college buildings which will be used by the art classes of that institution.

A big job was completed when the Bureau of Economic Geology at the University of Texas published a thousand page volume on all the present known rock strata of that state.

More than two hundred stones taken from the birthplaces or homes of some of the most celebrated men and women in history now constitute the unique collection which is known as the Memorial Path of Fame at Rollins College, Winter Park, Fla.

DON SPORTS

Who Plays Who In Conference

While Santa Ana junior college is taking advantage of a bye date the six other schools in the Eastern Division ring in the current conference football season with league contests. San Bernardino at Fullerton promises to be the best match of the day with Art Nunn's Hornet's rating slight favorites.

Riverside, division title holders perform at Pomona and are heavy favorites to take up their winning streak where they left off last year. Chaffey is a heavy favorite to clip the wings of the Citrus Owls.

Susanna Alexander New Swim Manager

Susanna Alexander was elected swimming manager for this semester at a meeting of the W. A. A. cabinet Monday noon. Miss Zena Leck, physical education instructor, announces that the last office to fill, that of hockey manager, will be considered the last of November when hockey season opens.

Other after school women sport managers for this semester are Barbara Copeland, tennis; Margaret Hoeffner, archery; and Doris Rockwell, basketball. More students are urged to turn out for these sports, especially freshmen women as attendance in some classes is very low.

TEAM!
TEAM!
TEAM!

Jaysee footballers, we're supposed to talk about merchandise that we have to sell in this space we buy in El Don! . . . but we can't be bothered with business when that team of yours has us sitting on the edge of our seat, with intermittent periods of insanity. That ruckus in the stands last Saturday was us pacing Welty across the goal line!

Now for the Uclans. Incidentally, remember we have clothes to sell, but don't let it interfere with bringing distress to the brothers in Westwood!

Vanderma's
FOURTH BROADWAY

Fullerton, Riverside, Citrus Meet Dons Here

Here is Santa Ana junior college's conference schedule that opens at Pomona a week from next Saturday.

Santa Ana at Pomona, October 21.

Riverside at Santa Ana, October 28.

Citrus at Santa Ana, November 4.

Santa Ana at Chaffey, November 4.

Santa Ana at Chaffey, November 11.

Santa Ana at San Berdo, November 18.

Bye—November 25.

Fullerton at Santa Ana, November 30.

Bell, Welty Best Of Cook's Tally Getters

Fred (Porky) Bell and Harold Welty lead Santa Ana junior college's scorers to date with one touchdown apiece; it's not a very imposing number you will agree, but a start anyway.

By a strange coincidence, both scores came through intercepted forward passes. Bell snatched his tally out of the atmosphere in the University of Southern California Frosh contest several weeks ago and Welty walked into a misdirected Pomona college toss and scampered 18 yards through a broken field to score. Both touchdowns were unconverted.

Ray Hapes, Red Devine Leave For Mississippi

Two of Santa Ana junior college's highest ranking football luminaries, Ray Hapes and Walt (Red) Devine, are soon to be on their way to the University of Mississippi and big time grid competition.

Hapes, a quarterback, and Devine, a tackle, both hail from Garden Grove where they played for Johnny Ward's Peppers last season.

Clarence (Moose) Hapes, Ray's big (and we really mean "big") brother and former ace fullback for Bill Cook's Dons, is now on Mississippi's varsity roster.

Art Casey May Form "Scrapping Class"

Arthur Casey, man mountain fistic promoter extraordinary of the Santa Ana junior college, has a new scheme for an additional sport on the Don athletic roster. Casey, ever on the lookout for a fight, has his irons in the fire for an after school boxing and wrestling class; the sad sad beginning, and perhaps ending, to this story is that no coach seems available.

If the sport can gain sufficient interest in the male student body, Casey might convince Clyde Patton that his services can't be done without; at present Patton is tutoring swimming.

Any interested, are requested to sign with Casey.

Bruin Freshmen Here Friday For Night Contest With Dons

By Jack Pegues

Surprise victors over Pomona College last week, Coach Bill Cook's Santa Ana Junior College Dons take advantage of a bye date this week-end to polish up their offense at the expense of the University of California (at Los Angeles) Freshmen. The game is billed for Friday nite at the Municipal Bowl.

Birdies

BY PEGUES.

The University of Louisville hasn't won a football game in two years. . . They have taken on a new coach, Ben Cregor, and now look for better times. Riverside Jaysee packed enough wallop in their offense to knock off the U. C. L. A. Frosh 24-14. . . The Bengal defense let two converted touchdowns leak thru. Santa Ana figured prominently in Cal's victory over St. Marys. . . Benny Lutz blocked Fiese's kick and Floyd (Toy) Blower hurtled across the Gael tally stripe for the tying counter, then added the extra point with a perfect placement. After the Kansas-Notre Dame scoreless deadlock, I must admit that chances for Mr. Howard Jones and his Trojan playfellows repeating their victories over the Rambler machine of the past two years look a whole lot better. . . Incidentally, Herbie Stroschien says, "Howard Jones will have to die before Troy stops winning!" . . . Harry Blee, erstwhile Santa Ana Hi guard is number one right halfback for the Occidental college frosh. . . The Oxy Tiger pups took a 26-6 spanking from Cumnock school last week.

MORE SCORES

Clyde Patton says the U. S. C.-St. Marys game will be decided by a single touchdown. . . He didn't say which way, but added, significantly, that the Gaels' defeat by the Bears last week didn't make their dispositions any sweeter!

Stanford over Northwestern; Occidental over Redlands; Navy over Pitt; and Santa Ana Jaysee over U. C. L. A. frosh.

HAPES, DEVINE LEAVE

Report has it that Ray Hapes and Walt (Red) Devine have a bid from the University of Mississippi. . . but they haven't started yet. The ex-Garden Grove gridders expect to bum . . . if they leave.

HITTING THE KEYS

Pitt is trying to book Notre Dame and Southern California on successive Saturdays next year. . . they have everything to win and nothing to lose. . . "Tex" Oliver is angling for a game with the Trojans for next year too. . . he thinks he can take 'em. . . Ted Needham will probably be out until the Don-Pomona match two weeks hence.

Miles Norton and big Jack Fredericks were the major casualties of the Claremont contest, but, according to Cook, they will be ready to go again Friday.

The loss of Ray Hapes is a serious one to the Dons. The ex-Garden Grove flash was the most colorful ball carrier on Cook's squad and his loss means that the jaysee coach will have to rely on Charles (Tex) Bowden and Bill McDaniel to relieve Harold Welty number one quarterback.

Spaulding, Haradon, and Williams are the Westwooder's scoring therats. Spaulding, son of the Bruin varsity coach, is well remembered for his stellar work with Urban last year.

The Bruin babes are expected to line up an eleven of the following: Fullinwider and McNeil, ends; Purdy and McFarland, tackles; Hastings and Spector, guards; McConnel, center; Gary and Haradon, halfbacks; Reichel, quarter; and Williams, fullback.

Jaysee Turns Pomona College Sagehens 6-0

Four years of college football managed to hold the Don aggregation for three and one-half quarters of a Saturday's titanic struggle. Out weighed to the man, the plucky Sagehen supporters defended their goal with all the zeal of an Apache horde, but, seemingly exhausted by the Friday nite struggle (dance), the local grid-ders never displayed any ambition to take the game till the last quarter.

Beginning with the last five minutes of play, the Santa Ana Dons pulled several foxy trys, placing the hide bound pill on approximately the fifteen yard line. A misdirected pass and Pomona had the ball. The ambitious Sagehens passed on their first down only to have Harold Welty snag the elusive sphere and cross the tally stripe for the only score in the contest.

Students Hail From 28 States

By Fredda Sawtelle

Mingling daily in Santa Ana junior college are graduates of about 117 schools, which are located in various parts of 28 states. Of these, the predominating element is noticeably from Santa Ana Poly Hi, which boasts of an approximate 42 per cent of the J. C. student body.

According to official tabulations, Orange attains the next greatest placement with a count of 67; Tustin and Huntington Beach are close behind with 54 and 48 respectively. Garden Grove rates 27, and Newport Harbor 25, while Anaheim numbers a mere 18. Included among us are 7 former Long Beachites, 6 former Los Angeles students, 6 from Pasadena, 5 from Excelsior, 4 each from Escondido and San Diego, and 3 apiece from San Pedro and Whittier. There are two students apiece from Ocean-side, Fullerton, Riverside, and Capistrano. California schools with single representatives, including Fresno, Pomona, Oakland, Chaffey, Glendale, Hemet, Stockton, Covina, Inglewood, San Bernardino, Santa Paula, El Monte, Gardena, and others, form a total count of 28 to raise the percentage of California private and high schools, other than Santa Ana, to 42.

Colorado hits the high mark for non-state alumni with 8, Kansas has 7, and Iowa 6. Oregon, Nebraska, Arizona, and Missouri each score 5. Washington claims 4, as does Texas and Idaho, while Indiana and North Dakota chalk up 3 apiece. South Dakota, New Mexico, Tennessee, Minnesota and Illinois are also in the running with 2 each. Ten students representing Utah, Delaware, Pennsylvania, Nevada, Montana, Louisiana, Kentucky, Mexico, Oklahoma, and Arkansas comprise the remainder of the 12 per cent "foreign" junior-collegiate population.

Special students who are not registered as graduated from high school, 34 in number, make up the balance of 755 students who have chosen to traverse the wide paths of knowledge encompassed in this fair institution of learning.

Students May Carry Athletic Insurance

Students wishing insurance against any form of injury incurred in athletic exercise may carry such by paying only a \$4 premium to the Sportsman's Assurance Co. of Los Angeles.

This not only insures during participation, but for the summer, and on Saturdays and Sundays when playing tennis, or whatever the holder may happen to be doing. This covers up to \$250, and is good for an entire 12 month year.

"It is a splendid opportunity for those who indulge in very much physical exercise to have very economical coverage for injuries," stated Dean McKee Fisk today, "and one never knows when some accident might occur."

Those interested may get more information at the college office at any time.

ENGINEERING STUDENTS ARE INVITED TO MEET

All students in the Engineering and Letters and Science divisions are invited to the meeting of the Association of Engineers' tonight. Mr. Roy Browning, head engineer of the Irvine Co., will speak. Refreshments will be served.

An extensive series of national and international collegiate debates are scheduled for the winter air. Oxford debaters in London will contest with Chicago University, Stanford with Cambridge, and Bates with Iowa.

The University of Havana has been turned into an enlisting post for the "Carbide Army".

More Than 40 Enroll In New Band Class

A total of 41 has enrolled in the weekly band class being held each Saturday morning in the high school auditorium, according to S. J. Mustol, music instructor.

This class is for the benefit of those playing band instruments who have no way to practice. Residents outside of Santa Ana may attend the course. At present the students are practicing tone production, phrasing, posture and proper beating methods.

Mustol announces that the class is free and will convene during the entire school year. The students will play for football games and various other functions.

A. W. S. To Sponsor Last Tea Tomorrow

With the entertainment arranged by Barbara Copeland for a group of freshman girls at the home of Mrs. Eleanor H. Northcross, Thursday afternoon, a series of A. W. S. teas will be concluded, according to Dorothy Tedford, president of the organization.

In presenting these four teas, which have served to help new girls to become acquainted, the A. W. S. has accorded a real service to the school, states Mrs. Northcross.

Interested Students May Write On El Don

"Any students who wish to do so may write for El Don if their work is of sufficient merit to warrant it," stated James Torrens, El Don editor today, in answer to many queries of interested students.

"We are glad to have students interested in El Don," continued Torrens, "and if there are students not on the staff who are good writers, we would appreciate their efforts." I would be glad to talk to those wishing to write at any time."

LARGE NUMBER ATTEND O. K. PARTY WEDNESDAY

About 75 students attended the O. K. club party which was held at the Y. W. C. A. hall last Wednesday.

Dancing and card playing occupied the main part of the evening, after which refreshments of cider and doughnuts were served. It was revealed during the evening that those participating in the good times represented 20 states and Canada.

According to International News Service co-eds in Soviet Russia are majoring in shoe making and minor-ing in carpet weaving so that they may prepare themselves for careers in the industrial world.

Russian History May Be Offered Next Sem.

Russian history will be taught by Mrs. Jennie L. Tessmann next semester if a petition asking for it is granted by President D. K. Hammond and the board of education, according to information from Dean McKee Fisk's office today.

Students are very much interested in Russian history if the petition circulated by Allien Buck is any indication, as the 30 required signatures were procured with many more that were not asked to sign who might be interested in the course.

Science Department Buys New Equipment

Among new equipment in the college chemistry department is an analytical balance with sensitivity of one-ten thousandth of a gram. According to Miss Etta May Conkle, chemistry instructor, this is one of the best balances to be obtained by the department.

New text books are also being used in both the chemistry and physiology classes. The new McGill-Bradbury manual in 2A chemistry gives a much better background of the work than the old text, Miss Conkle claims.

DR. KENNETH DUNKIN SPEAKS AT ASSEMBLY

Dr. Kenneth Dunkin, professor at Pomona college, spoke on "The Way Out" in the compulsory assembly yesterday, bringing out how we got into this depression, and showed several ways whereby the country might find relief.

The astronomical department at Carnegie Institute of Technology seems to have proved that there is not enough free oxygen on Mars to permit the existence of human beings.

Capt. Pettit Speaks On National Guards

Capt. Pettit, Commander of "L" Co. 185th Inf. California National Guards, in a short address in room 11, Friday, briefly outlined the duties and advantages offered to men between the ages of 18 and 45 by the National Guard units of which there are two in Santa Ana at the present time.

The captain explained that, due to the present economy program of the present administration, it is very improbable that a R. O. T. C. could be established in our college.

"However", Capt. Pettit continued, "we already have established here in town, two units that offer the same training to young men as does R. O. T. C., it is the national guards."

Collegiate dance orchestras will be broadcast during the noon hour at the University of Kentucky. These will be followed by classical presentations.
